About the Playwright

According to tradition, William Shakespeare was born on April 23, 1564, in Stratford-on-Avon. He received his early education in King Edward VI's Grammar School, where he studied Latin and literature.

There is no record of Shakespeare's early years in the theatre, but by the early 1590's, he had established himself as a playwright. In 1592, his contemporary Robert Greene attacked him as an "upstart crow" and a serious rival to university writers. In 1594, Shakespeare became an actor and shareholder in an acting company called the Lord Chamberlain's Men. By this time, he had written *The Comedy of Errors*, *The Two Gentlemen of Verona*, *The Taming of the Shrew*, *Titus Andronicus*, and *Richard III*. As a member of the company, he wrote about two plays a year. After 1599, most of his works were performed in the Globe Theatre. *As You Like It* was first performed in 1600. Many of his greatest plays were written during the early years of the Globe Theatre. During this period, the Lord Chamberlain's Men became the King's Men.

Shakespeare spent his later years in wealth and comfort, retiring to Stratford in 1610. He died on April 23, 1616. Most of his works were not published until 1623, when two fellow actors published the First Folio.
